Rezon Halos® Sizing Guide

NeuroSure

Rezon Halos® Size Guarantee

Halos® is designed to reduce your brain injury risk, so it must fit correctly.

If in doubt, or on a sizing border, **size down to the smaller option.** Rezon Halos® should fit tightly.

If Halos® moves while wearing, it is too large! And Halos® should never obstruct your view.

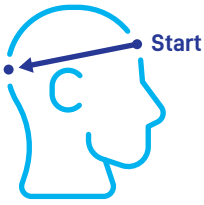
If you feel any tension or end up with deep red marks on your forehead, pick the next size up!

If your Halos® does not fit, let us know and send it back – we will correct the sizing and resend.

Certified B Corporation

CE UK CA

VIRGINIA TECH HELMET RATING 5 ★★★★★



Start at the centre of your forehead.

How Halos® should be worn.

Step-by-Step Instructions

1. Print at 100% scale
Make sure your printer settings are set to **"Actual Size"** or **"100%"**. Do not scale to fit the page. Check size using a credit/debit card, it should fit within the **red dotted line above**.

2. Cut out your measuring tape.

3. Find the centre of your forehead
Locate the midpoint of your forehead, just above your eyebrows.

4. Place the centre mark on your forehead
Hold the **"START"** mark of the printed tape measure at the centre of your forehead.

5. Wrap to the centre of the back of your head
Pull the tape straight around the side of your head to the **centre of the back of your hea**d (the point directly opposite your forehead at the top of your spine). The tape should run behind your ear. Halos® can be worn above or over the ears, but measurement should be taken against the surface of your head.

6. Read your measurement, ask someone to help you
Note the size shown on the tape when it reaches the back of your head. This is your **Halos®** Size.

Start Scale in cm 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25 26 27 28 29 30 31 32 33

Size Accuracy check

To check your print out accuracy place a Credit / Debit Card on this box, it should fit perfectly within the lines.

REZON HALOS® MEASURING TAPE
